³ Phylloxera Exclusion Zone (PEZ)
⁴ Area Freedom Certificate

Table 1 : Movement of Phylloxera host materials through Victoria, from a PIZ within Victoria

Destination	Permit Conditions
1.1 Table Grapes	
PIZ	No permit required. The grapes must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the grapes were packed for sale as table grapes, with a registered product containing at least 970g/kg anhydrous sodium metabisulphite at the rate specified on the label or in an APVMA permit.
PRZ	No permit required. The grapes must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the grapes were: <ol style="list-style-type: none"> (1) grown on a block which has been inspected in accordance with the provisions of the National Phylloxera Management Protocols and found free of phylloxera; or (2) packed for sale as table grapes, with a registered product containing at least 970g/kg anhydrous sodium metabisulphite at the rate specified on the label or in an APVMA permit.
PEZ	As above
1.2 Wine Grapes	
PIZ	Whole wine grapes for the purposes of wine making only, must be: <ol style="list-style-type: none"> (1) packed in bins, supplied by the processor, which have been cleaned free of soil & plant material before delivery; and (2) loaded into transport vehicles on a hard surface, not within the vineyard; and (3) consigned: <ol style="list-style-type: none"> (a) in bins which: <ol style="list-style-type: none"> (i) are not filled within 200mm of the top; and (ii) are securely covered (eg a solid cover or a tarpaulin); and (b) using transport vehicles which have been cleaned free of soil and organic matter; and (c) along a route approved by an inspector; and (d) with an emergency response plan approved by an inspector, for handling spillages; and (4) accompanied by a copy of the permit.
PRZ	Prohibited
PEZ	Prohibited
1.3 Must and Unfiltered Juice	
PIZ	The consignment must be: <ol style="list-style-type: none"> (1) in the case of whole must, be prepared from grapes which have been de-stemmed and crushed; and (2) in the case of juice, be prepared from grapes which have been crushed with or without de-stemming; and (3) be consigned: <ol style="list-style-type: none"> (a) in tankers, or other sealed containers, which are: <ol style="list-style-type: none"> (i) cleaned free of soil and organic matter; and (ii) sealed to prevent leakage or spillage; and (b) along a route approved by an inspector; and (c) with an emergency response plan approved by an inspector, for handling spillages; and (4) be accompanied by a copy of the permit.
PRZ	Consignor <ol style="list-style-type: none"> (1) as above for movement into a PIZ; or (2) accompanied by the PHD issued by a business accredited under ICA22. Consignee <ol style="list-style-type: none"> (1) The consignment must be accompanied by: <ol style="list-style-type: none"> (a) a permit issued by an authorised officer permitting movement of must or juice; or (b) a Product Movement Declaration issued by a business accredited under ICA 22; and (2) the business must be- <ol style="list-style-type: none"> (a) accredited under ICA22; or (b) inspected by an authorised officer and found to have suitable systems in place for the receipt of must or juice, including: <ol style="list-style-type: none"> (i) a dedicated unloading area; (ii) signage indicating designated roadways, and no-entry areas; (iii) waste disposal procedures; (iv) spill control procedures.
PEZ	as above
1.4 Marc	
PIZ	The consignment must: <ol style="list-style-type: none"> (1) have undergone a fermentation process of at least four days; or (2) have been composted for at least 3 months- <ol style="list-style-type: none"> (a) at least 500m from grapevines; or (b) in a secure and segregated location; and (3) be packed into a sealed container, which has been cleaned free of soil and organic matter; and (4) be consigned on a transport vehicle which has been cleaned free of soil and organic matter; and (5) be accompanied by a copy of the permit.
PRZ	As above
PEZ	Consignor <ol style="list-style-type: none"> (1) as above Consignee <ol style="list-style-type: none"> (1) The business must ensure the consignment is accompanied by a permit issued by an authorised officer permitting movement of marc from a PIZ into a PEZ
1.5 Cuttings, Rootlings & Potted Vines	
PIZ	Prohibited
PRZ	Prohibited

1.6 Germplasm	
PIZ	Germplasm must be: <ol style="list-style-type: none"> (1) grown in sterile conditions as tissue culture plants and consigned with a copy of the permit; or (2) accompanied by a Plant Health Certificate issued by an authorised officer certifying that the germplasm has been: <ol style="list-style-type: none"> (a) sourced from a unique clone or variety: <ol style="list-style-type: none"> (i) as approved by the Manager Plant Standards; and (ii) treated by submerging in a hot water bath for: <ol style="list-style-type: none"> (A) 5 minutes at 54±1 °C; or (B) 30 minutes at 50±1 °C; and (iii) loosely packed with not more than 10 cuttings of each variety per consignment.
PRZ	As above
PEZ	Consignor <ol style="list-style-type: none"> (1) As above Consignee <ol style="list-style-type: none"> (1) The business must ensure the consignment is accompanied by a: <ol style="list-style-type: none"> (a) permit issued by an authorised officer permitting movement of germplasm from a PIZ into a PEZ; or (b) Plant Health Certificate issued by an authorised officer.
1.7 Diagnostic Samples	
PIZ	Diagnostic samples must be accompanied by a permit issued by an authorised officer permitting the movement of samples if: <ol style="list-style-type: none"> (1) packed in an air tight container and sealed with packing tape; and (2) consigned to an accredited facility; or (3) disinfested by: <ol style="list-style-type: none"> (a) autoclaving at <ol style="list-style-type: none"> (i) 121°C and 103kPa for 15 minutes; or (ii) 134°C and 103kPa for 4 minutes; or (b) freezing to -18°C for 24 hours; or (c) freezing and transfer under liquid nitrogen at -196°C; or (d) freeze drying; or (e) oven drying to 45°C for 2 hours; or (f) hot water treatment at 54±1 °C for 5 minutes; or (g) fixing in formalin/acetic acid, 70% ethanol etc
PRZ	As above
PEZ	Consignor <ol style="list-style-type: none"> (1) As above Consignee The business must ensure that diagnostic samples are: <ol style="list-style-type: none"> (1) accompanied by a permit issued by an authorised officer permitting movement of samples from a PIZ into a PEZ; and (2) in the case of samples which have not been disinfested, received at a facility accredited under procedure PS-26.
1.8 Agricultural Equipment and Packages	
PIZ	Consignor <ol style="list-style-type: none"> (1) Agricultural equipment and used packages must be accompanied by a Plant Health Certificate issued by an authorised officer or a Plant Health Declaration issued by an approved person, declaring that the equipment or packages have been: <ol style="list-style-type: none"> (a) thoroughly cleaned with a steam cleaner or with high pressure hot water to remove all soil and plant debris; and (b) disinfested by: <ol style="list-style-type: none"> (i) steam applied at a temperature above 100°C, as measured at the steam outlet; or (ii) immersion in hot water (>70°C) for at least 2 minutes at temperature, or (iii) placing in a hot room: <ol style="list-style-type: none"> (A) for at least 75 minutes at a temperature of 45°C; or (B) for at least 120 minutes at a temperature of 40°C; or (c) in the case of barrels and mobile bottling plants, cleaned free of soil and organic matter.
PRZ	As above
PEZ	As above
1.9 Soil	
PIZ	Prohibited, except in the case of small quantities obtained for diagnostic or research purposes (refer conditions for diagnostic samples)
PRZ	as above
PEZ	as above

Table 2: Movement of Phylloxera host materials, from within Victoria, into a PEZ

From:	Permit Conditions
2.1 Table Grapes	
PIZ	No permit required. Grapes must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the grapes were packed for sale as table grapes, with a registered product containing at least 970g/kg anhydrous sodium metabisulphite at the rate specified on the label or in an APVMA permit.
PRZ	No permit required. Grapes must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the grapes were: <ol style="list-style-type: none"> (1) grown on a block which has been inspected in accordance with the provisions of the National Phylloxera Management Protocols and found free of phylloxera; or (2) packed for sale as table grapes, with a registered product containing at least 970g/kg anhydrous sodium metabisulphite at the rate specified on the label or in an APVMA permit.
PEZ	No requirements
2.2 Wine Grapes	
PIZ	Prohibited
PRZ	Consignor <ol style="list-style-type: none"> (1) The consignment must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the grapes were grown on a property which has been inspected within the previous year and found free of phylloxera. Consignee <ol style="list-style-type: none"> (1) The consignment must be verified by: <ol style="list-style-type: none"> (a) an authorised inspector; or (b) a person accredited under ICA33
PEZ	No requirements
2.3 Must and Unfiltered Juice	
PIZ	see table 1.3
PRZ	see table 1.3
PEZ	No requirements
2.4 Marc	
PIZ	see table 1.4. .
PRZ	The marc must: <ol style="list-style-type: none"> (1) have undergone a fermentation process for at least four days; or (2) have been composted for at least 3 months- <ol style="list-style-type: none"> (a) at least 500m from any grapevines; or (b) in a secure and segregated location; and (3) have been packed into a sealed container which has been cleaned free of soil and organic matter; and (4) be consigned in a transport vehicle which has been cleaned free of soil and organic matter; and (5) be accompanied by a copy of this permit.
PEZ	No requirements
2.5 Potted Vines	
PIZ	Prohibited
PRZ	Prohibited
PEZ	No requirements
2.6 Cuttings & Rootlings	
PIZ	Prohibited
PRZ	Cuttings and rootlings must be: <ol style="list-style-type: none"> (1) washed free of soil; and treated by: <ol style="list-style-type: none"> (a) fumigation with methyl bromide at the rate of 32g/m³ for 3 hours at a temperature of at least 18°C; or (b) submerging completely in a hot water bath for: <ol style="list-style-type: none"> (i) 5 minutes at 54±1 °C; or (ii) 30 minutes at 50 ± 1°C; and (c) packed loosely with no more than 50 plants per bundle; or (2) sourced from a Commonwealth post-quarantine facility; and (3) accompanied by a copy of this permit
PEZ	No requirements
2.7 Germplasm	
PIZ	see table 1.6
PRZ	The germplasm must be accompanied by a: <ol style="list-style-type: none"> (1) permit issued by an authorised officer permitting movement of germplasm that has been grown in sterile conditions as tissue culture plants; or (2) Plant Health Certificate issued by an authorised officer certifying that the germplasm has been sourced from a unique clone or variety that has been: <ol style="list-style-type: none"> (a) approved by the Manager Plant Standards; and (b) treated by submerging in a hot water bath for: <ol style="list-style-type: none"> (i) 5 minutes at 54±1 °C; or (ii) 30 minutes at 50±1°C; and (c) loosely packed with not more than 10 cuttings of each variety per consignment.
PEZ	No requirements
2.8 Diagnostic Samples	
PIZ	see table 1.7

Table 2: Movement of Phylloxera host materials, from within Victoria, into a PEZ

From:	Permit Conditions
PRZ	Diagnostic samples must be accompanied by a permit issued by an authorised officer permitting movement of samples that have been: <ol style="list-style-type: none"> (1) packed in an air tight container and sealed with packing tape; and (2) consigned to an accredited facility; or (3) disinfested by: <ol style="list-style-type: none"> (a) autoclaving at; <ol style="list-style-type: none"> (i) 121°C and 103kPa for 15 minutes; or (ii) 134°C and 103kPa for 4 minutes; or (b) freezing to -18°C for 24 hours; or (c) freezing and transfer under liquid nitrogen at -196°C; or (d) freeze drying; or (e) oven drying to 45°C for 2 hours; or (f) hot water treatment at 54±1°C for 5 minutes; or (g) fixing in formalin/acetic acid, 70% ethanol etc.
PEZ	No requirements
2.9 Agricultural Equipment and Packages	
PIZ	see table 1.8
PRZ	Agricultural equipment and used packages must be accompanied by a Plant Health Certificate issued by an authorised Officer or a Plant Health Declaration issued by an approved person certifying that the equipment or packages have been: <ol style="list-style-type: none"> (1) thoroughly cleaned with a steam cleaner or with high pressure hot water to remove all soil and plant debris; and (2) disinfested by: <ol style="list-style-type: none"> (a) steam applied at a temperature above 100°C, as measured at the steam outlet; or (b) immersion in hot water (>70°C) for at least 2 minutes at temperature, or (c) placing in a hot room: <ol style="list-style-type: none"> (i) for at least 75 minutes at a temperature of 45°C; or (ii) for at least 120 minutes at a temperature of 40°C; or (3) in the case of barrels and mobile bottling plants, cleaned free of soil and organic matter.
PEZ	No requirements
2.10 Soil	
PIZ	Prohibited, except in the case of small quantities obtained for diagnostic or research purposes (refer conditions for diagnostic samples)
PRZ	as above
PEZ	No requirements

Table 3: Movement of Phylloxera host materials into Victoria from another state

From:	Conditions:
3.1 Table Grapes	
PIZ	The grapes must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the grapes were packed for sale as table grapes, with a registered product containing at least 970g/kg anhydrous sodium metabisulphite at the rate specified on the label, or in an APVMA permit.
PRZ	The grapes must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the grapes were: <ol style="list-style-type: none"> (1) grown on a block which has been inspected in accordance with the provisions of the National Phylloxera Management Protocols and found free of phylloxera; or (2) packed for sale as table grapes, with a registered product containing at least 970g/kg anhydrous sodium metabisulphite at the rate specified on the label, or in an APVMA permit.
PEZ or area free	No requirements.
3.2 Wine Grapes	
PIZ	The consignment must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the whole wine grapes, for the purposes of wine making only, are: <ol style="list-style-type: none"> (1) packed in bins, supplied by the processor, which have been cleaned free of soil & plant material before delivery; and (2) loaded into transport vehicles on a hard surface, not within the vineyard; and (3) consigned: <ol style="list-style-type: none"> (a) in bins which are not filled within 200mm of the top, and are securely covered; and (b) using transport vehicles which have been cleaned free of soil and organic matter; and (c) along a route approved by a DPI Victoria Inspector; and (d) with an emergency response plan, approved by a DPI Victoria Inspector, for handling spillages. <p>Note: the movement of wine grapes into any area within Victoria, other than a PIZ, is prohibited.</p>
PRZ	Consignor <ol style="list-style-type: none"> (1) The consignment must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the grapes were grown on a property which has been inspected within the previous year and found free of phylloxera. Consignee <ol style="list-style-type: none"> (1) The consignment must be verified by: <ol style="list-style-type: none"> (a) an authorised inspector; or (b) a person accredited under ICA33
PEZ or area free	No requirements
3.3 Must and Unfiltered Juice	
PIZ	Consignor <ol style="list-style-type: none"> (1) The consignment must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that: <ol style="list-style-type: none"> (a) in the case of whole must, grapes have been de-stemmed and crushed; and (b) in the case of juice, grapes have been crushed with or without de-stemming; and (c) consigned: <ol style="list-style-type: none"> (i) using transport vehicles, or other sealed containers, which have been cleaned free of soil and organic matter; and (ii) along a route approved by a DPI Victoria Inspector; and (iii) with an emergency response plan, approved by a DPI Victoria Inspector, for handling spillages. Consignee <ol style="list-style-type: none"> (1) The consignment must be accompanied by: <ol style="list-style-type: none"> (a) a plant health certificate issued by an authorised person; or (b) a Product Movement Declaration issued by a business accredited under ICA 22; and (2) the business must be: <ol style="list-style-type: none"> (a) accredited under ICA 22, in the case of businesses in a PEZ; or (b) inspected by an authorised officer and found to have suitable systems in place for the receipt of must or juice, including: <ol style="list-style-type: none"> (i) a dedicated unloading area; (ii) signage indicating designated roadways, and no-entry areas (iii) waste disposal procedures; (iv) spill control procedures.
PRZ	As above
PEZ or area free	No requirements
3.4 Marc	
PIZ	The consignment must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that: <ol style="list-style-type: none"> (1) a fermentation process of at least four days has been completed; or (2) composting for at least 3 months has been completed- <ol style="list-style-type: none"> (a) at least 500m from any grapevines; or (b) in a secure and segregated location; and (3) the marc has been packed into a sealed container; and (4) the container and transport vehicle have been cleaned free of soil and organic matter.
PRZ	As above
PEZ or area free	No requirements

PIZ	Prohibited
PRZ	Prohibited
PEZ or area free	No requirements

Table 3: Movement of Phylloxera host materials into Victoria from another state

From:	Conditions:
3.6 Cuttings & Rootlings	
PIZ	Prohibited
PRZ	Cuttings and rootlings must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the cuttings or rootlings have been: <ol style="list-style-type: none"> (1) washed free of soil; and treated by: <ol style="list-style-type: none"> (a) fumigation with methyl bromide at the rate of 32g/m³ for 3 hours at a temperature of at least 18°C; or (b) submerging completely in a hot water bath for: <ol style="list-style-type: none"> (i) 5 minutes at 54 ± 1°C; or (ii) 30 minutes at 50 ± 1°C; and (c) packed loosely with no more than 50 plants per bundle; or (2) sourced from a Commonwealth post-quarantine facility.
PEZ or area free	No requirements
3.7 Germplasm	
PIZ	The consignment must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the germplasm: <ol style="list-style-type: none"> (1) has been grown in sterile conditions as tissue culture plants; or (2) has been sourced from a unique clone or variety: <ol style="list-style-type: none"> (a) as approved by the Manager Plant Standards; and (b) treated by submerging in a hot water bath for: <ol style="list-style-type: none"> (i) 5 minutes at 54±1 °C; (ii) 30 minutes at 50±1°C; and (3) loosely packed with not more than 10 cuttings of each variety per consignment.
PRZ	As above
PEZ or area free	No requirements
3.8 Diagnostic Samples	
PIZ	Diagnostic samples must be accompanied by a Plant Health Certificate issued by an authorised officer, or a Plant Health Assurance Certificate issued by an accredited person, certifying that the samples have been: <ol style="list-style-type: none"> (1) packed in an air tight container and sealed with packing tape; and (2) consigned to an accredited facility; or (3) disinfested by: <ol style="list-style-type: none"> (a) autoclaving; or <ol style="list-style-type: none"> (i) 121°C and 103kPa for 15 minutes; or (ii) 134°C for 103kPa for 4 minutes; or (b) freezing to -18°C for 24 hours; or (c) freezing and transfer under liquid nitrogen at -196°C; or (d) freeze drying; or (e) oven drying to 45°C for 2 hours; or (f) hot water treatment at 54±1°C for 5 minutes; or (g) fixing in formalin/acetic acid, 70% ethanol etc.
PRZ	As above
PEZ or area free	No requirements
3.9 Agricultural Equipment and packages	
PIZ	Agricultural equipment and used packages must be accompanied by a Plant Health Certificate issued by an authorised officer certifying that the equipment or packages have been: <ol style="list-style-type: none"> (1) thoroughly cleaned with a steam cleaner or with high pressure hot water to remove all soil and plant debris; and (2) disinfested by: <ol style="list-style-type: none"> (a) steam applied at a temperature above 100°C, as measured at the steam outlet; or (b) by immersion in hot water (>70°C) for at least 2 minutes at temperature, or (c) placing in a hot room: <ol style="list-style-type: none"> (i) for at least 75 minutes at a temperature of 45°C; or (ii) for at least 120 minutes at a temperature of 40°C; or (3) in the case of barrels and mobile bottling plants, cleaned free of soil and organic matter.
PRZ	As above
PEZ or area free	No requirements
3.10 Soil	
PIZ	Prohibited, except in the case of small quantities obtained for diagnostic or research purposes (refer conditions for diagnostic samples)
PRZ	as above
PEZ or area free	No requirements
